FSMA Statement

The **FDA Food Safety Modernization Act (FSMA)** was signed into law on January 4th, 2011 and based upon the law our compliance is required by our company by September 2017. This is a “living document” and subject to revision, as such components such as risk analysis will not be published but will be available for review at our facilities by request.

FSMA aims to ensure the U.S. food supply is safe by shifting the focus of federal regulators from responding to contamination to preventing it. Mother Murphy's Laboratories, Inc. is in full compliance.

<http://www.fda.gov/Food/GuidanceRegulation/FSMA/ucm247548.html>

FSMA compliance requires "full participation" in:

- Hazard Analysis Critical Control Points (HACCP)
- Preventative Controls (Certified PCQI personnel)
- Inspection and Compliance
- Vendor Certification Program (foreign vendors included)
- Allergen Control Program
- Sanitation Program
